Highlights

- Revenues in Q2-2016 (quarter ended February 29, 2016) increased by 18% YOY to \$9.77 million and were in line with our expectations. Six month revenues were up by 24% YOY to \$19.14 million.
- EBITDA was up by 181% YOY to \$1.21 million in Q2.
- The company, along with third-party investment partners, acquired two operating hotels in downtown Vancouver in 2015, with the objective of converting the two hotels to student housing.
- Phases 1A and 1B of the renovation of the first hotel were completed in July 2015, and January 2016, respectively, and 110 beds were made available for rental. Currently, all of these beds are occupied. In Q2-2016 (quarter ended February 29, 2016), this project generated \$0.31 million in rental revenues. Phase 2 is expected to be completed by Fall 2016,f to add an additional 110 beds.
- Renovation of the second hotel is expected to be complete by July 2016. This hotel is expected to generate \$0.87 million in rental revenues by Q3-2016.
- CIBT is also making good progress on the other projects under development within the Greater Vancouver Area.
- We expect several catalysts for CIBT's shares this year as the company continues to advance its projects.

Update on Global Education City (GEC) Management's goal over the next five years is to build a portfolio of student housing projects offering 10,000 beds for a total projected valuation of \$1 billion. Their strategy is to build a portfolio of stable cash flowing assets and potentially sell to institutional investors, or spin off the assets via an Initial Public Offering ("IPO") to generate long-term returns for CIBT shareholders.

An increasing number of international students, and the high-demand for affordable student housing in Vancouver, prompted the company to move into this space, and capitalize on their over 21 years of experience in Education Management. CIBT's business plan is to partner with third-party investors to jointly acquire operating assets or develop / construct student housing projects. CIBT generates revenues by charging an upfront structuring fee of approximately \$1 - \$2 million, and an ongoing annual management fee of approximately 8% of the gross income to the Limited Partnerships. CIBT will use the structuring fee to earn up to a 25% equity in each project.

The following chart shows the acquisitions made by CIBT and its partners via Limited Partnership arrangements:

The map below shows the strategic locations of the properties within Greater Vancouver.

Viva

The following section presents an overview of the assets:

CIBT partnered with an investor to jointly acquire Viva Suites Hotel ("Viva"), located in downtown Vancouver (within the core of the City of Vancouver), for \$29.6 million in 2015. CIBT is now converting the luxury hotel into a building with up to 220 beds targeting students. Phases 1A and 1B of the renovation were completed in July 2015, and January 2016, respectively, and 110 beds were made available for rental. Currently, all of these beds are occupied.

Source: Company

In Q2-2016 (quarter ended February 29, 2016), this project generated \$0.31 million in revenues versus \$0.34 million in the previous quarter. Revenues dropped QOQ because the commercial office units from floors 2 - 7 were vacated for renovation. Phase 2 is expected to be completed by Fall 2016, to add an additional 110 beds.

Management estimates a Net Operating Income ("NOI") of \$2.4 million upon completion of the renovation. A cap rate of 4.5% will result in a valuation of approximately \$53 million, indicating strong potential for capital gains as the total project cost including the purchase price and renovation cost is approximately \$36 million. Our research indicates that capitalization rates of rental properties in the area range between 3% and 5%.

Granville

In November 2015, CIBT structured a limited partnership to acquire a 19 year old operating hotel (Best Western Plus) located in downtown Vancouver for approximately \$38 million. Just like Viva, management plans to convert this hotel into student housing for approximately 270 beds. The 12 storey building has a White Spot Restaurant in the ground floor, a conference room facility, Jacuzzi, fitness center and other hotel amenities.

The company expects to complete renovations by July 2016. Management estimates a Net Operating Income ("NOI") of \$2.6 million upon completion of the renovation. A cap rate of 4.5% will result in a valuation of approximately \$58 million, much higher than the purchase price.

Burnaby Heights In December 2015, CIBT announced that it signed a purchase and sale agreement with a developer to purchase a condominium project in Metro Vancouver that is currently under construction, with an estimated total cost of approximately \$21 million. The location of this project is in close proximity to Simon Fraser University, Capilano University, the British Columbia Institute of Technology, and Sprott Shaw College East Vancouver Campus. Management expects this 84 bed project to be completed by Fall 2016. In March 2016, the company announced that the LP associated with this project completed a \$6 million financing.

Pearson

In May 2014, CIBT signed a Purchase and Sale Agreement with a Vancouver based developer to purchase three properties in the Greater Vancouver area. The project site is 5 minutes walking distance from the nearest subway (skytrain) station at the corner of Marine S.W Drive and Cambie street. The project is expected to have a housing capacity for 310 students. The expected development budget of the project is \$44 million. This project is currently under development and management expects it to be operational by January 2017.

West King Edward In May 2015, CIBT signed a Purchase and Sale Agreement with a Vancouver developer to acquire two properties that are centrally located in Vancouver, approximately 300 feet from a Skytrain / Subway station located at the corner of West King Edward Ave and Cambie Street. On February 9, 2016, CIBT announced that the company has expanded its previously signed Purchase and Sale Agreement to include a third lot. The project is now expected to be comprised of 46,000 net rentable square feet. The total project cost is approximately \$30 million. Three independent investors have been brought in to fund this

Education Super Center development. CIBT will earn a structuring fee (which they will use to acquire up to 21% equity in the project) and a 20 year management contract.

No updates were provided on the company's flagship project. In June 2015, the company announced that it signed a MOU (memorandum of understanding) with a developer (name undisclosed) to jointly develop the Education Super Center. The project site, owned by the developer, is a 2.51 acre waterfront property in Greater Vancouver. The plan is to rezone and develop the property into one office tower and two hotels (student housing) totaling approximately 327,000 sq. ft.

The total projected development cost of the project is \$170 million, of which, 70% is expected to be funded by debt. CIBT and the developer are planning to raise the remaining 30% (approximately \$50 million) through equity, with the formation of a new limited partnership, in which CIBT will hold a 20% equity interest.

The total cost of the above mentioned five projects, excluding the Education Super Center, is approximately \$170 million. Management expects to have approximately 1,000 beds from five projects by the end of 2016.

Revenues up by 18% YOY in Q2 In Q2-2016, revenues increased by 18% YOY to \$9.77 million. The table below summarizes the company's key divisions and their revenues.

Sprott Shaw College ("SSC") and Acsenda School of Management ("ASM") - SSC and ASM's revenues increased by 2.5% YOY, and accounted for 64% of the company's revenues in Q2. In December 2015, the company signed an agreement to sell ASM for \$5 million. ASM was acquired for approximately \$1 million in 2007. Ascenda has 160 students, and had generated \$2.8 million in revenues, and \$0.29 million in EBITDA, in FY2015. The transaction is expected to be completed by May 2016.

CIBT China - Over the past few years, due to the increasing competition in the private degree programs space, CIBT has been phasing out its programs in China. Its renewed focus is on lower tuition-fee mass market programs, such as career training programs related to business, hotel and tourism management, information technology, automotive training, English language training, etc. In Q2-2016, revenues increased by 2.9% YOY to \$0.66 million due to increased demand for ESL programs. Revenues were up by 12.5% YOY in the six month period to \$1.40 million.

Global Education City – The company started reporting rental revenues from the Viva project in FY2015. In FY2015, they reported \$0.65 million with a gross margin of 25.9%. In Q2-2016, revenues were \$0.31 million (\$0.34 million in Q1), with a gross margin of 21% (41% in Q1). Revenues and margins dropped QOQ in Q2 because most the office spaces were vacated in preparation for renovation and conversion. Our discussions with management indicated that the budget for the phase 2 renovation is estimated to be \$2.7 million, which is within the total budget for the renovation of the building.

We have not made any significant changes to our revenue forecasts. Our revenue forecasts for FY2016, and FY2017, are \$38.75 million (previous estimate - \$38.10 million) and \$45.18 million (previous estimate - \$44.97 million), respectively.

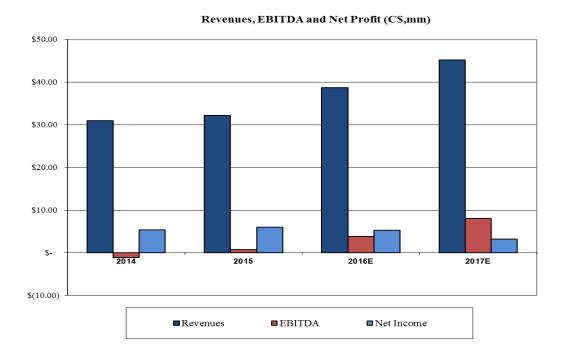

Gross margins increased slightly YOY from 65.2% to 65.4 % in Q2 primarily because of the increase in revenues from development fees. The company currently does not assign any direct costs to revenues from development fees. The following table shows margins:

Margins	Q2-2015	Q2-2016	2015 (6M)	2016 (6M)
Gross	65.2%	65.4%	61.9%	63.6%
EBITDA	5.2%	12.4%	-0.6%	10.8%
EBIT	2.4%	10.0%	-3.6%	8.3%
EBT	41.6%	6.2%	18.1%	5.2%
Net	41.6%	6.2%	18.1%	5.2%

General and administrative ("G&A") expenses in Q2 increased by 4.4% YOY to \$5.18 million. As a percentage of revenues (excluding the development fee revenues), G&A expenses dropped YOY from 69.1% to 68.2%.

EBITDA was \$1.21 million in Q2-2016, versus \$0.43 million in Q2-2015. In the six month period, EBITDA was up from -\$0.09 million to \$2.06 million. The following chart shows a summary of the operating performance since 2014.

The company reported net income of \$0.60 million (EPS: \$0.01) in Q2-2016, versus a normalized net income of \$0.17 million (EPS: \$0.00) in Q2-2015. After deducting non controlling interest, the company reported net income of \$0.86 million (EPS: \$0.02) in Q2-2016, versus \$1.02 million (EPS: \$0.02) in Q2-2015.

Our revised net profit forecast (minor changes from previous) for FY2016 is \$5.26 million (EPS: \$0.08), and for FY2017 is \$3.21 million (EPS: \$0.05). Our FY2016 forecast includes a gain of \$3.76 million from the sale of ASM. We have not included any potential gain in property valuations, for conservatism.

Cash Flows

The following table shows a summary of the company's cash flows:

Summary of Cash Flows

Effects of Exchange Rate	-\$0.10	\$0.00
Net	-\$1.44	\$0.00
Free Cash Flows to Firm (FCF)	-\$29.24	-\$5.36

Free cash flows ("FCF") were -\$5.36 million in the six month period in FY2016, versus -\$29.24 million in the same time period in the previous year.

Balance Sheet At the end of Q2-2016, the company had \$3.91 million in cash. Working capital and the current ratio were -\$35.25 million and 0.3x, respectively. The working capital deficit was mainly due to the Viva take-out loan of \$25 million being a current portion of long-term debt, which is not a normal current liabilities item. The company also had \$11 million in deferred revenues. The company will be replacing the Viva take-out loan with a long-term (25 or 30 year) mortgage shortly, which will improve the company's working capital position.

Debt to capital increased from 44% at the end of FY2015, to 49% by the end of Q2-2016.

The following table shows the company's cash and liquidity position.

We reiterate our BUY rating and raise our fair value estimate from \$0.76 to \$0.80 per share (risk rating of 3 - average).

Risks

The following risks may cause our estimates to differ from actual results (not exhaustive):

- Competition in the private education business in Canada is high.
- Real estate development and financing risks associated with GEC.
- The company's profitability is highly dependent on the health of the student housing real estate market in the Greater Vancouver area.
- Although the company has been able to pursue cheap acquisitions in the past, there is no guarantee they would be able to continue to do so going forward.
- Exchange rate risks exist, but are not significant as revenues from China account for less than 10% of the total revenues.
- Although topline (revenue) growth has been significant, the company has yet to achieve a track record of profitability.

Suspended or Rating N/A— Coverage and ratings suspended until more information can be obtained from the company regarding recent events.

Fundamental Research Corp. Risk Rating Scale:

1 (Low Risk) - The company operates in an industry where it has a strong position (for example a monopoly, high market share etc.) or operates in a regulated industry. The future outlook is stable or positive for the industry. The company generates positive free cash flow and has a history of profitability. The capital structure is conservative with little or no debt.

- 2 (Below Average Risk) The company operates in an industry where the fundamentals and outlook are positive. The industry and company are relatively less sensitive to systematic risk than companies with a Risk Rating of 3. The company has a history of profitability and has demonstrated its ability to generate positive free cash flows (though current free cash flow may be negative due to capital investment). The company's capital structure is conservative with little to modest use of debt.
- 3 (Average Risk) The company operates in an industry that has average sensitivity to systematic risk. The industry may be cyclical. Profits and cash flow are sensitive to economic factors although the company has demonstrated its ability to generate positive earnings and cash flow. Debt use is in line with industry averages, and coverage ratios are sufficient.
- 4 (Speculative) The company has little or no history of generating earnings or cash flow. Debt use is higher. These companies may be in start-up mode or in a turnaround situation. These companies should be considered speculative.
- **5 (Highly Speculative)** The company has no history of generating earnings or cash flow. They may operate in a new industry with new, and unproven products. Products may be at the development stage, testing, or seeking regulatory approval. These companies may run into liquidity issues, and may rely on external funding. These stocks are considered highly speculative.
